To whom it may concern,

Staro Quantico 19-1054, standardbred trotter, stallion, microchip 985141001343836, owner Staro International AB.

The above mentioned horse had arthroscopic surgery at Evidensia Helsingborg Equine Referral Hospital the 16th April 2020 for right hindlimb medial type I osteochondral fragment of the proximal phalanx.

The surgery and recovery were uneventful.

The prognosis for athletic function is considered to be excellent.
