

## Janus (604222)

Hingst, Född 27-04-2024

Operation 11-02-2025: Bilateral Tarsocrural joint (TCJ) arthroscopy (Hasled), OCD distal intermedia ridge of the Tibia LH (VB) and OCD fragment distal lateral trochlea ridge RH (HB).

TCJ LH (Hasled VB): Fragment removed from the distal intermedia ridge of the Tibia and subchondral bone curetted. Normal cartilage in the remainder of the joint.

TCJ RH (Hasled HB): Fragment removed from the distal lateral trochlea ridge. Subchondral bone curetted. Normal cartilage in the remainder of the joint.

The prognosis is good and the operation is not expected to affect the performance of the horse in the future.
