Hingst, Född 17-04-2024

Operation 11-02-2025: Bilateral Tarsocrural joint (TCJ) arthroscopy (Hasled), OCD distal intermedia ridge of the Tibia.

TCJ RH (Hasled HB): Fragment removed from the distal intermedia ridge of the Tibia and subchondral bone curetted. No abnormalities on the medial malleolus. Normal cartilage in the remainder of the joint.

TCJ LH (Hasled VB): Fragment removed from the distal intermedia ridge of the Tibia and subchondral bone curetted. Normal cartilage in the remainder of the joint.

The prognosis is good and the operation is not expected to affect the performance of the horse in the future.
