Operationsberättelse - 2026-04-16 15:21 / Leg. Veterinär AL

Surgery - POF lateral LH fetlock
Surgeon: Dylan Gorvy Resident: Anna Lindqvist
Horse placed in dorsal recumbency. Local anestesia according to the joint study (blinded). Routine approach to the plantar aspect of the fetlock. A moderate size lateral POF removed, complete removal confirmed radiographically. Portals closed with 2-0 polypropylene SI. Low limb bandage.
